

Dual Mission Reward Program (DMR)

Big News!

Trucks are tight. So are chassis. NS wants to help.

Introducing the Dual Mission Reward Program.

Most International container gate moves at Chicago/Landers and Kansas City involve a bare chassis in, and a container out (or vice-versa). Dual missions – a container in and a container out on the same visit – are more efficient and increase truck and chassis supply.

Starting September, 1, 2021, participating customers who increase their dual mission percentage to 50% will receive a cash credit of \$200 for each outgated container performed as a dual mission at that terminal.

Where? Chicago/Landers & Kansas City. Percentage will be calculated and payments made for each terminal individually.

When? Sign up in advance for a 3 month DMR term.

What counts as “Dual Mission?” A single truck visit to Chicago/Landers or Kansas City in which both the in-gate and out-gate are a container move, not a bare chassis or tractor bobtail.

Who is eligible? NS International Shippers – Ocean Carriers and International IMCs.

PARTICIPATE

Sign up with your NS Market Manager by August 16th

PERFORM

Achieve 50% of dual missions on all outgates coming out of terminal

PAYMENT

Receive payment once performance is confirmed
